OFFICE OF REPORTS AND ESTIMATES

O.R.E. Memorandum No. 41-47

5 September 1947

SUBJECT: Check List for Political Section of Situation Reports

The accompanying check list has been prepared to aid in the preparation of the political section of the CIG Situation Reports. It is not intended that this check list serve as an outline for the writing of the reports. Rather, it is to guide the writers in looking for recent significant developments. For this purpose the check lists are necessarily comprehensive in scope. It is expected, however, that the writers will be very selective in reporting only those phases of the current situation which are significant from the point of view of US national security.

Any questions concerning the use of the attached check list, or assistance required in applying it to specific reports, should be discussed with the Estimates Group of ORE.
